Fire strikes without warning! To combat this ever-present threat, Phoenix has provided the ultimate in protection for irreplaceable company records and documents. In a furnace test, with the fire at an incredible 1122°C, the Phoenix Fire Fox safely protected its contents for over 3 hours!

In addition, our engineers have produced not only the finest ever protection against fire, but the cupboard has also been built with security protection in mind. The cupboard has been tested and certified by one of the leading European testing institutions ECB.S to the EN14450 S1 standard.

The safe is locked with a high security double bitting key lock supplied with two keys (SS1620K Series) or user friendly, but high security SECU SELO - A digital electronic Lock (SS1620E Series). This lock allows the user to programme their own personal code of easily remembered numbers. The SS1620 Series also have the advantage of a "slam action" automatic locking mechanism for emergency use.

The large capacity of the SS1620 Series with internal capacities from 129 litres to 315 litres provide ample storage for irreplaceable documents and valuables. Each unit is also fitted with adjustable full width shelves and one lockable steel drawer unit.
