

The TP Light is an attractive low profile, versatile emergency luminaire suitable for internal environments and with the added advantage of being able to take a full size escape route legend. Comprising of a moulded self-extinguishing polycarbonate and fitted with a clear prismatic diffuser, suitable for use on escape routes (850 degree C Hot-Wire test, defined by ICEL). The diffuser is clipped to the base to provide a seal to IP40. The gear tray is easily removable to allow first fix of the base. Cable knockouts are provided in the ends and a BESA entry in the base. Complying with the requirements of EN60598-2-22 and suitable for incorporation into an emergency lighting system complying with BS5266-1:2005. Available in white.
