

Don't become a carbon monoxide death statistic

Be Aware, Be Prepared

Signs of carbon monoxide poisoning Include:

Carbon Monoxide, the silent killer

Any appliance using fossil fuel can produce carbon monoxide. Protect yourself and your family from carbon monoxide poisoning.

- X** NEVER take a BBQ or gas cylinder cooker into your tent to cook food
- X** NEVER use a BBQ or gas cylinder cooker to warm up your tent
- ✓** ALWAYS make sure you cook a safe distance away from your tent
(wind can blow carbon monoxide into your tent)
- ✓** ALWAYS take a battery operated carbon monoxide detector camping with you.
