

ADULT SLING

- **SAFE WORKING LOAD OF UP TO 45 STONE (285KG)**

The ProMove sling provides a safe and comfortable means of manually transferring a mobility impaired individual, from one location to another and can be operated by two or more persons. Once the sling is in position, it cocoons the individual, eliminating pressure and reducing the risk of injury, whilst enabling a dignified, safe transfer.

PROVIDES A SAFE AND DIGNIFIED TRANSFER

SPECIFICATION:

Safe Working Load	45 stone 285 kg 630 lb
Length (Overall)	1130 mm
Length (Internal)	800 mm
Width of backrest	600mm
Length of seat	495 mm
Overall Width	1300 mm

BENEFITS:

- ✓ Easy to use
- ✓ Lightweight
- ✓ Portable (Carry bag included)
- ✓ Compact design

ADDITIONAL ACCESSORIES:

- **Extension Handles** - allows more than four operators to assist with the transfer and extends the reach of the back handles.
- **Hoist Straps** - four colour coordinated straps easily loop around the handles, to work in conjunction with a hoist.
- **Padded Lifting Belt** - a soft 1m belt, with handles at both ends enabling two operators to assist in lifting a passenger's legs (individually).
- **Bugg Strap** - assists the operator in ensuring the ProMove sling is in the correct position, whilst maintaining minimum contact with the passenger.
