

Touch Bar Panic Exit Hardware - EN1125:2008

SED600 Series

Touch Bar Series

The Securefast Touch Bar Series of panic exit hardware provides a high quality option which combines sleek architectural styling with superb performance characteristics.

The main feature of the design is the tactile aluminium touch bar which is not only visually attractive but is comfortable to grip, enabling the unit to be used to close the door and is easy to cut on-site during installation.

The Series is available in single, double or triple latching point variations for single or double door combinations and can be used with or without external access device.

The Securefast Touch Bar Series is not just attractive in appearance but has undertaken 1.5 million test cycles (over 7.5 times the highest requirement of the standard) offering exceptional levels of durability and functionality.

Tested by independent test house to EN 1125:2008 Panic Exit Hardware, and CE marked for safety.

SED601
