XLP RANGE

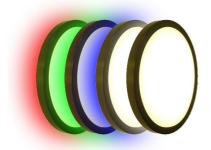

Ringtail®

The building blocks of lighting. Start with the XLP or XLP/halo, add your choice of lamp, add emergency and add a range of finishes and trims, you tailor make the light to your requirements. The XLP offers a versatile fitting that can be altered to every application, manufactured from a polycarbonate base with BESA entry and 2 x 20mm conduit entries and a sheet steel gear tray to allow for first fix of the base. All models are 430mm in diameter and use high frequency ballasts as standard. The XLP can include an emergency pack suitable for incorporating into an emergency lighting system complying with BS5266-1: 2005.

The XLP is a high quality polycarbonate enclosure for use in mains and emergency applications. The base is available in white, chrome or brass and the diffuser in opal or prismatic.

The XLP / HALO is a translucent polycarbonate enclosure for use in mains and emergency applications where backlighting is required. The base is available in red, green, blue and white and the diffuser in opal or prismatic. As an added option the rim is available in chrome or brass.

Curved Trim to fit the XLP made from sheet steel in white, brass, chrome or brushed steel finishes. This trim fits to the XLP via a polycarbonate clip.

Angular Trim to fit the XLP made from sheet steel in white, brass, chrome or brushed steel finishes. This trim fits to the XLP via a polycarbonate clip.

The 530 is a large rounded trim to fit the XLP base increasing its size considerably. Made from Steel and available in various finishes. Fastened with metal springs.
