Astro Thermal Fire PS

Revision 8 - 17th January 2020

ETA - 14-0017
CE-1224-CPR-0055

Astro Thermal Fire PS

Thermal Fire Pipe Sleeve

- CE Marked.
- Suitable for fire protecting a wide range of plastic and metal pipes.
- Tested to BS476: Part 20.
- Tested to BS EN 1366-3.
- Up to 2 Hours Fire Rating.
- Acoustic Tested to BSEN ISO 140-3 and BSEN ISO 717.
- Maintains thermal insulation for the pipe.
- For use through a wide range of fire partition walls and floors.
- Allows for thermal movement of pipe.
- EN13501-1.
- No additional metal sleeving or lining out of the partition aperture required.
- Cost effective, can be cut to length

Product Description

A high percentage of the steel, copper and plastic pipes found in commercial and domestic buildings will penetrate through fire rated constructions such as ceilings, floors and walls. Once a hole is made in a fire rated construction for the passage of pipes or services the integrity of the compartment is compromised.

To solve this problem Astroflame have developed Astro Thermal Fire Pipe Sleeve, which reinstates the fire rating of the construction and prevents fire spreading from one compartment to another. It also protects copper pipes from cement erosion.

The sleeve is a cost effective product for the fire stopping of pipe penetrations, e.g. plumbing pipe and metallic pipes, whilst maintaining similar thermal and acoustic properties as standard mineral fibre insulation. These properties ensure compliance to water bye laws and building regulations for cold and hot water pipes and heating systems.

In a fire situation the sleeve expands to fill the available space between the pipe and the penetration. In the case of plastic pipes the sleeve will crush and close off the pipe forming a solid char and preventing the passage of fire and smoke to the adjacent compartment.

Tested in Plasterboard Partition, Mineral Fibre Batt, Solid Walls and Floors.

Product Availability

Tested on the following pipe sizes to BS 476 Part 20 and BS EN 1366-3 for up to 2 hours.

BS 476 part 20		
COPPER	Pipe Size 12mm - 160mm	120 mins
STAINLESS STEEL	Pipe Size 15mm - 160mm	120 mins
MILD STEEL	Pipe Size 15mm - 165mm	120 mins
CAST IRON	Pipe Size 15mm- 160mm	120 mins
PVC	Pipe Size 55mm- 110mm	120 mins
PVC	Pipe Size 160mm	90 mins
POLYBUTYLENE	Pipe Size 12mm - 28mm	120 mins
HDPE	Pipe Size 15mm - 160mm	120 mins
EN 1366-3		
METAL	Pipe Size 15mm - 158mm	EI 120 Wall
METAL	Pipe Size 159mm	E120 EI30 Wall
PVC	Pipe Size 43mm - 160mm	EI 120 min wall & floor
HDPE	Pipe Size 40mm - 110mm	120 min wall & floor
HDPE	Pipe Size 160mm	EI 90 wall / EI 120 floor

All sleeves have been tested with a 25mm nominal wall thickness. Sleeves have been tested cut flush to the wall for metal pipes only and floor for metal and plastic pipes. Sleeves have also been tested in walls, for plastic pipes, leaving 25mm exposed for connection to standard pipe insulation.

The sleeve is simple to install, easy to cut and one sleeve can replace two collars. For metal pipes the sleeve may also be fitted flush to the wall for a clean line solution.

Pipe Material	Diameter	Blockwork Wall	Solid Floor	Mineral batt	Plasterboard Wall
COPPER	Pipe Size 15mm - 160mm	•	•		•
