TOBACCO CONTROL
Cig-Arrête® TOBACCO

'Cig-Arrête© SD Evolution' Flame & Smoke Detector (Part No CSA-FGV & CSA-FGV/R)

Brand new for 2012, the Cig-Arrête® SD Evolution is the first product to incorporate Multiple Detection Technology.

Part No CSA-FGV incorporates Flame and Smoke detection and is designed to provide voice messages in any area of a facility to warn of illicit tobacco smoking, such as restrooms, washrooms in schools, hospitals and business across America.

Fully programmable with a simple hand held remote, the Cig-Arrête® SD Evolution product range is a truly global product with the ability to play any audio file in any language without the need for complex programming knowledge.

Product Features

- On sensing the presence of a flame or smoke, Cig-Arrête® SD Evolution will play any pre-programmed voice files in any language.

- The CSA-FGV is available as a standard, battery operated unit or in the CSA-FGV/R wireless version for communication with other Cig-Arrête® SD Evolution products.

- Time delays between messages are selectable via the remote programmer to ensure that the message is broadcast at the right time.

- Up to 100 messages can be pre-programmed and selected either individually or sequentially where each message in the list is played in turn on each activation.

- Cig-Arrête® SD Evolution contains a Windows® based file structure which allows simple 'drag and drop' file copying for ease of programming.

- New SmartWave© hi-resolution voice playback software produces crystal clear hi-fidelity audio files to be broadcast in any location.

- Cig-Arrête® SD Evolution can be powered simply by 4 x AA alkaline batteries, or connected to the mains through a 6Vdc power supply unit for high traffic areas.

"Please do not smoke In this area"
