

PRODUCT

# Mains Ionisation Smoke Alarm

KF10R

### DESCRIPTION

Mains-powered ionisation smoke alarm that can be interlinked with up to 23 other Kidde mains alarms, be they ionisation, optical or heat. Once interlinked, the detection of the relevant danger by an individual unit will sound across all the connected alarms.

Rechargeable sealed-in Lithium cell back-up version

#### **KEY FEATURES**

- Interlink with up to 23 Firex hard-wired alarms all alarms sound if danger is detected
- Alarm memory identifies source unit within interconnecting network
- Reduced energy consumption lower lifetime running costs
- **Combined Test/Hush™ button** allows regular testing of alarm function and can be used to temporarily silence nuisance alarms
- Auto reset after activation
- **Tamper-resistant locking device** prevents unauthorised removal without the use of a tool
- Mains operation Built-in rechargeable Lithium back-up tamper-proof battery
- WHERE TO USEIonisation alarms are for use in areas where there is danger from fast-flaming fires.This mains-powered unit complies with UK Building Regulations for new housing and associated<br/>standards (Grade D BS 5839, Part 6) and should be installed by a qualified electrician. It can be<br/>used throughout the home, except in the kitchen where a Firex Heat Alarm is recommended.

GENERAL FEATURES	Model	KF10R		
	Power Supply	230V mains-powered with recharge	geable Lithium bat	tery back-up
	Temperature Range	0°C to + 40°C		
	Humidity Range	Up to 93% Relative Humidity (RH)	non-condensing	
	Storage and Transport	-20°C to +60°C and 5–95% relativ	e humidity (RH) no	on-condensing
	Alarm Dimensions	185 x 185 x 40mm		
	Bracket Dimensions	133 x 133 x 6mm		
	Alarm Weight	199g		
	Warranty	6 years (including battery)	æ	$( \  \  \  \  \  \  \  \  \  \  \  \  \ $
	Approvals	BSI certified to BS EN14604:2005	¥	して
		CE tested and certified	EN14604:2005 Licence no: KM524754	0086-CPD-535595 15 EN14604:2005
