

Britannia P50 Service-Free Fire Extinguishers

Britannia P50 service-free extinguishers offer customers substantial cost savings as they do not require servicing by an extinguisher engineer for 10 years and do not require refilling after 5 years. They are backed by the manufacturer's guarantee, kitemarked by BSI, certified by Apragaz, LPCB and CE marked to BS EN3.

No Maintenance Costs

The Britannia P50 fire extinguishers do not require maintenance by an extinguisher engineer and can be maintained easily by any competent person over its lifespan.

Fully kitemarked and approved

As certified BAFE manufacturers, Britannia produce the P50 extinguishers to the highest standards with British Kitemark, LPCB, Apragaz and CE mark to BS EN 3. In addition the extinguishers are vigorously tested with a crush test and subsequent 12,000 cycle durability test.

10 Year Warranty

The inner core of the P50 is encased in layers of Aramid fibres (used in bullet-proof jackets & modern jets) with only brass and stainless steel components being used, ensuring that P50 extinguishers are 100% corrosion proof and allowing a 10 year manufacturer's guarantee to be provided with every unit.

Free Delivery and Installation Service

Our P50 extinguishers are installed and certified by our BAFE certified extinguisher engineers, free of charge. We will carry out a free site survey at the point of installation to ensure that your premises are fully protected, we will commission your units prior to installing them, supply relevant wall ID signage and provide certificated training for your staff to demonstrate how to visually inspect P50 units.

Key Features:
