

Model: EL52W2 Two Storey Escape Ladder

The First Alert Two Storey Escape Ladder provides a means of escape from a second-storey window in the event of a fire or other emergency. This 4.3 metre ladder can hold up to 510kg at a time. It is constructed with steel anti-slip rungs and DuPont Cordura nylon strapping for strength and stability. The fire safety ladder can be used on standard window sills, stored under a bed or in a cupboard for easy access, and comes fully assembled.

Product features:

- Ideal for living / sleeping areas on the first floor
- 4.3 m in length
- Ladder tested to carry weight up to 510 kg
- Fully assembled, ready to use and retracts for easy and compact storage
- Wide sill hooks accommodates window sills between 15 cm to 33 cm
- Slip-resistant rungs with steel stabilisers
- Dupont Cordura strapping for extra strength
- Rungs, stabilisers and wide sill hooks all constructed from strong steel
