

Battery Heat Alarm with 💽 RadioLINK^{+*} – Ei603RF

- Battery powered for life with a sealed 10 year lithium batterv
- Fast respone thermistor sensor, best for large flaming fires
- RadioLINK⁺ Module fitted for wireless interconnection
- Up to 12 Alarms and Devices can be interconnected
- Easy to install, no wiring required
- Large easy to use Test/ Hush button
- Silence nuisance/ false alarms
- Built in Piezoelectric horn
- Alarm fault warnings
- Aesthetically pleasing, compact design
- 10 Year life

FIT IN:

CONTAINS:

PRODUCT DESCRIPTION

The Ei603RF Battery Heat Alarm With RadioLINK* is activated by heat from a fire, not smoke, which makes it ideal for kitchen installations where smoke alarms are prone to nuisance alarms.

The Ei603RF is powered by a sealed 10 year lithium battery that is non replaceable. It is designed to last for the working life of the alarm. When depleted it will give an audible and visual warning.

The Ei603RF is fitted with a 💿 RadioLINK^{+*} Module. This will allow the alarm to be interconnected to other RadioLINK⁻ Alarms and Devices. Up to 12 Alarms and Devices can be interconnected. An interconnected system will enhance early detection and warning of fire.

The Ei603RF is supplied with screw fittings with a simple to install twist on base. The alarm is not powered until it is twisted on the mounting base, thus avoiding battery power consumption during storage and prior to installation

The Ei603RF and other **ORADIOLINK** enabled smoke Alarms and Devices must be House Coded together. This will avoid interference and unintentional interconnection with other systems.

The Alarm is fitted with a Test/ Hush button to facilitate frequent testing of the Alarm and system. The silence function allows the Alarm/ system to be silenced in the case of a false/ nuisance alarm, e.g. cooking fumes.

TECHNICAL SPECIFICATION	
Sensor Type:	Thermistor - Activates at 58°C
Battery:	9V lithium battery
Sound Level:	85 dB(A) at 3 meters
Temperature:	Operating - 0°C to 40°C
•	Storage - 0°C to 35°C (in a dry area)
Humidity Range:	15% to 95% Relative Humidity
Button Test:	Simulates the effect of smoke and
	checks chamber, electronics and horn
Self Test:	Smoke chamber, battery and
	electronics are automatically tetsed
	every 40 seconds
Indicator LED's:	Green - RE Module
	Red - Power, alarm, Low battery, Fault
Memory:	Red LED will flash twice every 16
	seconds indicating recent Alarm event
RF Frequency:	868.499MHz
Plastic material:	UL94 HB
Dimensions:	Product - 115mm x 55mm
	Package - 120mm x 120mm x 63mm
Weight:	216g (Boxed 277g)
Warranty:	5 year (limited) warranty
Approvals:	
	\square \square \square Kitemarked to
	LCV BS 5446-2:2003
