

This LED, exit sign is suitable for all interior applications. The convex front and perforated side and bottom faces makes for an eye-catching alternative. Comprising of a white stove enamelled, zintec coated sheet steel base fitted with a self extinguishing legend panel. The X-ESL Light uses high illumination white leds giving a low energy requirement from the mains power supply with the life span of the LED's and batteries, together with its self diagnostic processor you can rely on this unit for many years. It has a cable knockout, which is provided in the back. Available in maintained and non maintained self-test, they continuously test the battery voltage and the operation of the LED's every 15 days and every 6 months the autonomous duration of the battery. With flexibility in mind a full range of alternative finishes are available, white as standard.
