

FAST-ACT Combat Wipe

Chemical Liquid
and Vapor Neutralizer

FAST-ACT Combat Wipe consists of a proprietary formulation of non-toxic high-performance specialty materials effective at adsorbing a wide range of chemical agents. The FAST-ACT Combat Wipe is a 100% rayon 10"x12" wipe towel with the FAST-ACT Liquid Decon. Each are individually packed for rapid, single use situations. The FAST-ACT Liquid Decon formulation is safe and significantly reduces both liquid and solid chemical trace residues.

The FAST-ACT Liquid Decon product uses the same advanced technology that was developed for the original FAST-ACT line of sorbent powder decon products (mitts, cylinders, shakers, pails) that have been helping responders neutralize liquid and vapor hazards for nearly two decades. By adapting the technology to a rapid use wipe form, responders have a new tool with FAST-ACT capabilities.

Item Number: FA019-1012-00FA

Composition:

- Water
- Magnesium Oxide
- Titanium Dioxide
- Zinc Oxide
- Ethoxylated Alcohols

Technical Data:

- 10-minute efficacy against a variety of chemistries:

Primary Application:

Directly applied to hard surfaces for trace chemical removal and adsorption/neutralization. The user applies the wipe to the surface and uses circular motions to contact the trace contamination.

The FAST-ACT Combat Wipe is best used in conjunction with other FAST-ACT products for bulk chemical contamination.

Coverage Area:

Approximately 0.5 m² with less than 100 mg/m² contamination density

*FAST-ACT is protected by multiple U.S. and international patents and patents pending; this includes, but is not limited to U.S. patents: 5,990,373; 7,276,640; 7,279,129; 7,335,808; 7,661,483; 7,956,232; and 8,038,935.
