

Product composition and safety sheet

1. Product identification

Supplier Name:	Medicare Products Ltd.
Supplier Address:	Unit B, Dolphin Way, Purfleet, Essex, RM19 1NZ
Product Brand:	Medicare - Nitrex Extra Sensitive
Product Description:	Nitrile Examination Gloves
Product Code:	GN01
Contact Details:	+44 (0) 1708 863 868

2. Hazard identification

Classification under CLP: This product has no classification under CLP.

Label elements: This product has no label elements.

PBT: This product is not identified as a PBT/vPvP substance.

3. Composition

Chemical Name	CAS Number
Acrylonitrile Butadiene Rubber (NBR)	9010-81-5
Potassium Hydroxide	1310-58-3
Sulphur	7704-34-9
Zinc oxide	1314-13-2
Titanium dioxide	13463-67-7
Zinc Di-N-Butyldithiocarbamate	136-23-2
Pigment	N/A

4. First aid measures

Skin contact: No effects requiring first aid are expected during normal use. However, irritation to those with type IV sensitivity to accelerator chemicals may occur. Should irritation occur, wash the affected area with water and seek medical attention. Discontinue use of the product.

Eye contact: There may be irritation and redness. Bathe the eye with running water for 15 minutes.

Ingestion: No effects requiring first aid are expected during normal use. However, if part of the product were ingested do not induce vomiting and seek medical attention.

Inhalation: Inhalation of fumes released at high temperature can be irritating to the lungs and fatal. No effects requiring first aid are expected during normal use. If exposed to fumes received from decomposition products, remove the person to fresh air. Seek immediate medical attention.

Safety information

Contact with skin: None under normal conditions of use. However, irritation to those with type IV sensitivity to accelerator chemicals, may occur.

In case of fire:

Flammability: Combustible at high temperatures.

Products of combustion Once ignited nitrile will continue to burn releasing dense smoke. The products of decomposition are hazardous and consist of carbon dioxide, carbon monoxide, hydrogen cyanide, oxides of nitrogen, oxides of nitrogen, oxides of sulphur and hydrocarbons.

Fire fighting media: Dry powder, carbon dioxide, alcohol-resistance foam. Inhalation of fumes must be avoided. Fire fighters should wear the appropriate breathing apparatus and adequate skin protection to protect from thermal combustion products.

Storage: Store in a cool, dry place away from direct sunlight and sources of ignition.

Transport: No transport warnings required, the gloves are not classified as hazardous.
