Compliance Made Easy

Germgard™

Smart Sanitising System™

Germgard is a smart sanitising system, designed to promote good hygiene practices to building users. Using digital signage, it alerts users to sanitise their hands before gaining entry. Germgard can be used as a stand-alone system or it can be integrated with electronic door locks, automatic doors, and access control systems.

Benefits

Promote hygiene best practice

Wire-free Bluetooth sanitiser unit

Automatic door activation

Customisable PIR range
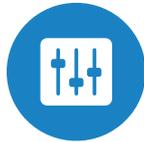

Personalise messages and graphics

Germgard controller connects to screens via HDMI (supplied)

Easy integration with access control & electronic locks

Suitable to use with all sanitising liquids

Energy harvesting technology

Scenarios

1

Scenario 1

Germgard can be integrated with access control. When the user presents their access control fob and sanitises their hands the door will unlock.
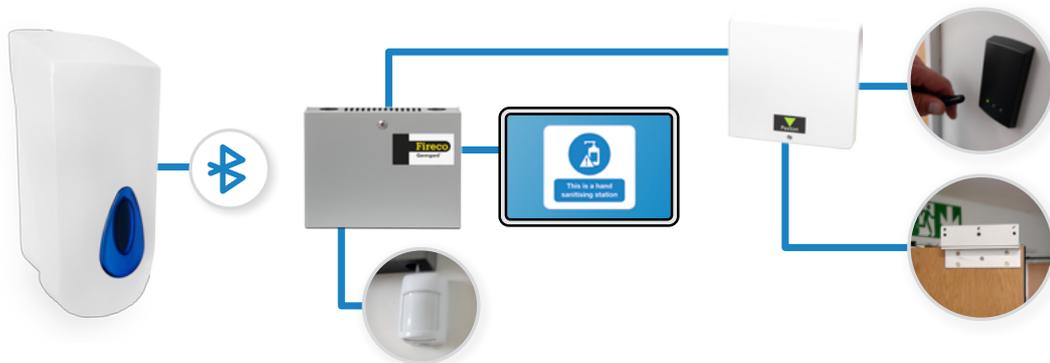

2

Scenario 2

Germgard can be integrated with an automatic door system. When the user sanitises their hands the doors will automatically open.
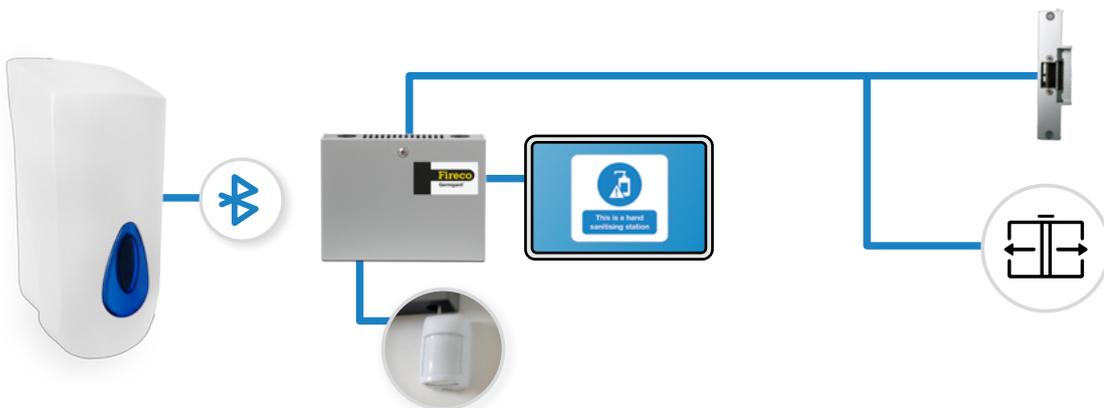

3

Scenario 3

Germgard can be integrated with CCTV to activate PTZ presets, upscale recording, and create alarm notifications.
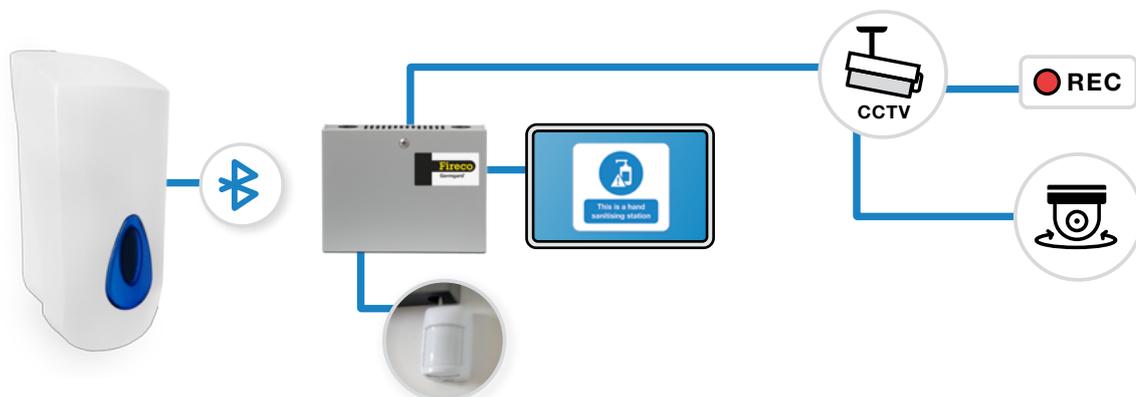

Note: Sanitiser Unit subject to change without prior notice
