

# UltraFire

## Battery Powered Optical Smoke Alarm

**Why optical?** Designed to replace older ionisation technology, optical sensors are less prone to false alarms from everyday fumes like bathroom steam, dust while cleaning, or normal cooking vapours. They are also quicker to react to slow, smouldering fires typically seen around electrical equipment and furniture.

### Where can optical smoke alarms be used?

Alarms with optical sensors are ideal for installation in living rooms, bedrooms, hallways and near to kitchens (but not within kitchens – for kitchens and garages, use an UltraFire heat alarm). With a clean, simple and discreet design the UltraFire range of alarms will suit any style of home.

TECHNICAL DETAILS	<b>DIMENSIONS (H x DIA)</b>	35 x 89.5mm
	<b>WEIGHT</b>	0.18kg
	<b>BATTERY TYPE</b>	Replaceable 9V Alkaline (1 x PP3)
	<b>SENSOR TYPE</b>	Optical (photoelectric)
	<b>SOUND OUTPUT</b>	85dB+ at 3 metres
	<b>SMOKE SENSITIVITY</b>	0.099 – 0.144dB/m
	<b>SILENCE TIMEOUT</b>	8 minutes
	<b>CERTIFICATION</b>	EN 14604: 2005 / AC: 2008
	<b>SUITABILITY</b>	BS 5839-6 Grade F2
	<b>WARRANTY</b>	10 years
	<b>USEABLE LIFESPAN</b>	10 years
<b>PRODUCT CODE</b>	UFUBS1	

**What features?** Low battery is indicated with chirp noise and LED flash every 32 seconds. When silenced, the LED will flash silently every 8 seconds for 8 minutes. The supplied battery is easily replaceable by the user. The alarm features a combined Test & Hush button. All this is backed up by a 10 year warranty.

**Why UltraFire?** Enjoy personal service, quality products and competitive trade pricing when you purchase from UltraFire. With many years of experience supplying a wide range of fire safety products to trade customers worldwide, UltraFire can offer you a reliable service and a range of delivery options to suit.
