

Code Handle Round rose

Application:

4 digits separate your private or sensitive items from public access. Code Handle helps to control private access in public spaces, like archives, stock rooms, guest toilets, medical storage or offices.

- Keyless and convenient - Secure your private rooms with no keys, no wires and no expensive access control system
- Auto locking - How frequently do you need to enter and leave the store room? No more needing to remember to lock the door
- Easy to install and retrofit - All it takes is two screws to fit a Code Handle on almost any interior door

Specification:

- Pin activated electromechanical lever on round rose for interior doors
- For simple, effective keyless locking/unlocking of interior doors in light commercial and residential environments, where the convenient access control is the main priority
- For DIN standard lockcases
- DIN and Scandinavian models with 8mm sized spindle
- Auto-lock and permanent unlocked functionalities
- Supplied with 9 different user codes (4-6 digits) and 1 master code (6 digits)
- Visual LED displays status locked or unlocked
- Adjustable on and off acoustic signals for operation of the lever and pressing the buttons
- Power supply - 2 x lithium-ion batteries 3V (CR2), 30,000 life cycles
- Suitable for 35 - 80mm door thickness

Standards:

- CE marked to EN 55022 Class B, EN 61000-4-2, 4-3, 4-8 and EN 61000-6-2, 6-3. Declaration of conformity available upon request
- Included in a successful fire test to EN 1634-1
- 2 year guarantee

Finish:

- Surface – zinc die casting and stainless steel
