## UBCO1 Carbon Monoxide Alarm

**Reliable protection:** Choose the UltraFire UBCO1 Carbon Monoxide Alarm for reliable quality when you need it most. Independently tested and certified by TÜV Rheinland to British Standards and CE marked, this alarm is ideal for protection against CO poisoning at home or when travelling.

### Where should carbon monoxide alarms be fitted?

Carbon monoxide alarms should be installed near fuel-burning appliances such as a fireplace, log burner or boiler. It's also wise to install a CO alarm in places of your home where you spend the most time, such as your living room or bedroom.
