

# Powder Fire Extinguisher

**Why powder?** Dispersing a cloud of fine particles, powder surrounds the fire, disrupts the chemical process, and starves it of oxygen. Powder provides defence against fire in multi-risk areas, especially suitable for Class B (flammable liquid) or Class C (flammable gas) fuel fires where electricity is involved.

**Where should powder be used?** Less susceptible to freezing than water-based extinguishers, powder also suits outdoor storage and use, as well as being the standard for vehicle fire protection. This makes powder a great choice for keeping in your vehicle, garage, or home workshop. It is also ideal for caravans, camping, and small inland leisure boats.

**Why UltraFire?** With many years of experience in the fire safety industry, UltraFire can offer you reliable service, quality products, competitive trade pricing, and a range of delivery options to suit.

TECHNICAL DETAILS	MODEL	600g Powder	950g Powder
	SIZE	600g	950g
	FIRE RATING	13B, C	21B, C
	CHARGED WEIGHT	0.82kg	1.10kg
	OPERATING PRESSURE	8 bar	10 bar
	DISCHARGE TIME	Under 6 sec	Under 10 sec
	DIMENSIONS (H x Dia)	268 x 59mm	291 x 66mm
	MED APPROVED	No	No
	PRODUCT CODE	UFXALPHA	UFXBETA

Suitability

Class A	Class B	Class C	Class D	Electrical	Class F
