

ZAMT Addressable Maxitone Sounder

The maxitone addressable sounder is a large horn sounder suitable for many applications. It can be used on any panel using the Zeta Addressable Protocol. It is available in red or white. It is suitable for indoor & outdoor use

It has a large back-box with knockout cable entries, which has plenty of room for fitting the cables.

It has an internal 8 way dip switch for setting the device address, and a sound output of 94 dBA @ 1m.
